Re: Georgia Mountain Community Wind Project, PSB Docket No. 7508
Request for Final Board Action on all CPG Pre-Construction Compliance Filings

Dear Mrs. Hudson:

Yesterday, Georgia Mountain Community Wind, LLC submitted the last of the post-CPG compliance filings enumerated in its Certificate of Public Good that require PSB approval prior to commencing construction. Petitioner notes that the CPG provides that parties have three weeks to comment. However, in the recently issued CPG for the Lowell Mountain wind project (Docket No. 7628), the Board limited the comment period to two weeks only. Petitioner therefore requests that the Board limit the comment period on the final construction plans to two weeks, or October 26, 2011. This is necessary to allow Petitioner to move towards securing an EPC contract, a turbine purchase agreement, and commencing construction. Moreover, given the significantly smaller scope of this project, there is no reason why Georgia Mountain Wind should have a more onerous comment period.

Petitioner respectfully asks that the Board affirmatively approve these plans as soon as possible after the October 26th deadline, and moreover that the Board act upon all outstanding submittals (filed earlier this summer; others more recently on October 3rd) so that the record is clear that Petitioner has complied with the CPG requirements and may commence construction activities.

Mrs. Susan M. Hudson
